

2026 2027 KLEVR KUBS

THE PROGRAM

This program is focused on player development. Skating and skill acquisition in a team environment is the primary focus. This program will be offered by KSL organizations. To be a Klevr Kubs program our members must enter a team or teams into our fun introductory events. These events will gradually evolve as the season progresses to meet the developmental readiness of the players.

WHO AND WHERE

KSL organizations will decide if they will be running a Klevr Kubs program. The program is designed for players in the 2021 and 2022 birth years. The focus is on skill development and team environment. Please check out our website to find an organization near you.

WHY

The KSL believes in playing, competing and developing. We want all of our players to develop and grow in a team environment. We want our players to start their hockey journey with us as they prepare to play hockey at the highest level. We strive to give our players access to quality instruction and coaching, fun and exciting events and opportunities and the tools they need on and off the ice to be successful in the rink

HOW DO I SIGN UP

Contact a KSL organization near you.
Check out klevrsuperleague.ca
and/or contact us for support and
